Sapphire Necklace

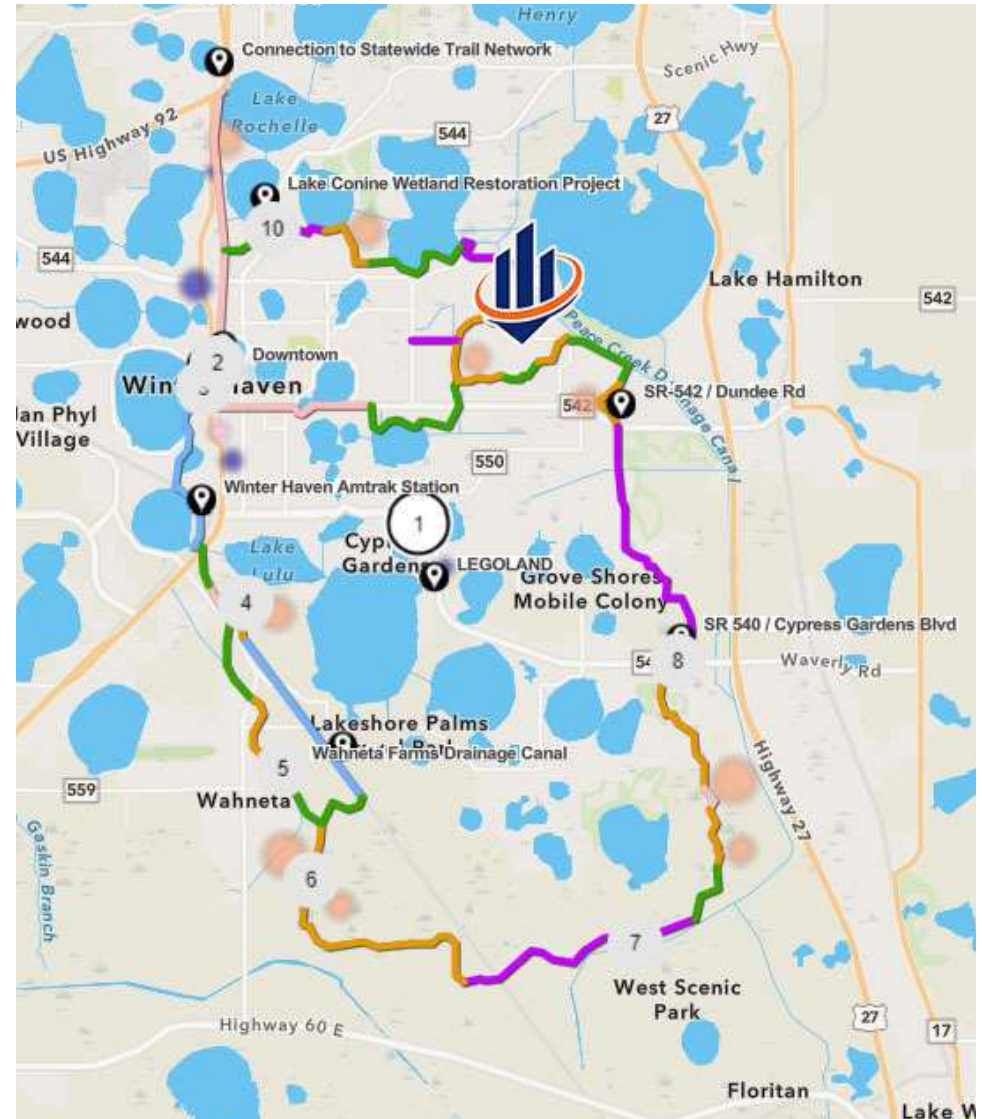

SAPPHIRE NECKLACE

Sapphire Necklace is a one of a kind water project that is scheduled to provide a navigable waterway around the city of Winter Haven for low impact water recreation. The path is guided by Winter Haven's lakes, aquifer recharge, and water storage to promote the best water strategies. The trails runs for over 40 miles to connect various nature zones, neighborhoods, and urban areas. The potential path interacts with 12 lakes, and helps guide water runoff to recharge zones through its emphasis on nature-based design.

Pepsi Cola and the City of Winter Haven are major supporters of this water reclamation and preservation effort. Once completed, the Sapphire Necklace will provide a loop around the City of Winter Haven via enhanced waterway connections, canals and other bodies of water. It is estimated that the project will help replenish much of the estimated 27 billion gallons of water lost from the past century.
